Better Performance, Better Results

Who are we?

CONNECTING YOUR BUSINESS TO THE TECHNOLOGY RESOURCES YOU NEED

Global Commercial Group provides **Management Consulting**, **Technology Solutions**, and **Capital Services** globally through our network of management practitioners. **Global Capital Services** provides and helps facilitate Commercial, Business, SBA, and Church Loans throughout the nation through our consortium of lenders. We offer a 2 for 1 guarantee for our consulting services.

TECHNOLOGY CONSULTING PROVIDES A TOTAL END TO END SOLUTION.

IT CONSULTING SOLUTIONS

Our **IT Consulting** outfit is designed to help local organizations around the world compete globally by providing **Technology Solutions** that improve organizational performance, results, and profitability based on the building blocks of management, operations, cost and quality control, finance, and marketing. Our objective is to transform local companies around the world defined by their core values and capabilities (not products and results) to global entities able to adapt to a changing market. We believe it is virtually impossible to be Global without the necessary technological paraphernalia. Our **IT consulting** division ensures your organization has the right technological tools to complement your products and services. The true path to Globalization is by the use of technology to save cost, improve efficiency and productivity to leverage your products and services. Our IT consulting services can be holistically combined with our **Management Consulting Services** to help you achieve better results globally.

Why Global Technology Solutions

Global Technology Solutions services ensure that you have the right tools and technology to make a global entry and maintain a global presence. We use best practices and benchmarking to pair you with the best. We provide world-class **IT consulting and Development services, Technology Implementation, IT Project Management, Internet Marketing, and Branding** to make your organization a global living brand.

Our Global Technology Solutions is in tandem with our Management Consulting Services, but can be a standalone service depending on the needs of our clients. Our commercial lending/financing is currently limited to the United States, but will be open to the rest of the world in the coming months.

CUSTOM SOLUTIONS

Global Custom Solutions requires the integration of Management Consulting and IT Consulting Services to improve your ability to compete locally and globally. This service is recommended if you are in the manufacturing or retail service, or if your organization has special needs.

WEB SOLUTIONS

Our IT Consulting division provides world-class global IT Consulting, IT Project Management, Global Internet Marketing, Technology Implementation, Technology Systems Management, Knowledge Management Systems, Enterprise Resource Planning (ERP) and Software Development.

CAPITAL SERVICES

Global Capital Services also known as Commercial Lending Services is a pilot program initiated by Global Commercial Group to complement the holistic efforts of its management consulting practice. The lending program covers Business Loans, Non Profit Organization Loans (such as church loans), SBA Loans, Investor Loans, and other specialized commercial loans. More information available upon request.

MANAGEMENT CONSULTING SERVICES

Our Management Consulting outfit is designed to help local organizations around the world compete globally by providing management solutions that improve organizational performance, results, and profitability based on the building blocks of management, operations, cost and quality control, finance, and marketing. Our objective is to transform local companies around the world to global entities able to adapt to a changing market. Be global, not local!

HOW WE OPERATE

Our consulting solution service is two prongs - business analysis, and consulting. The business analyst travels to your site to conduct a thorough 360 degree analysis of your business to identify symptoms and underlying problems or gaps. Using analysis tools and techniques, such as Systems Analysis, Force-Field Analysis, or Differentiation-Integration Analysis techniques (in tandem with other data gathering methods), the analyst is often able to identify problems and possible intervention. The second phase involves the practitioner or consultant. The consultant travels to the site to implement the solutions or systems design based on the recommendations of the business analyst.

BENEFITS TO YOUR ORGANIZATION

- ❖ **Your organization will be able to innovate processes, products, and services to reduce cost, create value, and improve performance and stakeholders' satisfaction.**
- ❖ **Your organization will become more successful and profitable**
- ❖ **You will become successful solving the two problems of business- people and change**
- ❖ **Your organization will be able to move from personal power to synergy power organization-wide**
- ❖ **Shift from control to trust, and communicate your values to others while enjoying improved bottom lines**
- ❖ **Become a value creating organization and a living brand with global recognition and influence**

CONSULTING
